TSX: CNT

**CENTURY ANNOUNCES FILING OF FIRST QUARTER FINANCIAL RESULTS AND
MANAGEMENT DISCUSSION AND ANALYSIS**

Toronto, Canada, August 10, 2017 – Century Global Commodities Corporation (“Century” or the “Company”) is pleased to announce that it has filed its condensed consolidated interim financial statements for the first fiscal quarter ended June 30, 2017 and the related management discussion and analysis (“MD&A”). Copies of these documents are available under Century’s SEDAR profile at www.sedar.com and will be posted on Century’s website at www.centuryglobal.ca.

The Company reported substantial working capital of C\$27.32 million, which included cash, bank deposits and an investment portfolio of C\$16.8 million (not tied to any funding commitment for any project development), a net receivable of C\$10.3 million, and an accounts payable of C\$785K as at June 30, 2017.

We continue to support our large portfolio of quality iron ore assets. Recovery of the iron ore markets has been strong during the current fiscal year, with iron ore prices experiencing a mini-cycle recovery in July and August. However, we are watching the sustainability of the upward pricing trend and retaining our market observer position for our iron ore business while maintaining a small, lean mining team ready to advance our projects rapidly when the market recovers adequately.

Regarding our quality food business, we have successfully established a marketing and distribution network covering some strong international brands. This has attracted more international suppliers, offering us increased product opportunities that should form the basis of continued growth.

The following table shows the rapid growth of our food business since the beginning of calendar year 2016, when sales began. Growth has been solid, continuous and substantial over six consecutive quarters. Continued growth is expected as our customer base and product sourcing continue to expand.

About Century

Century Global Commodities Corporation (TSX:CNT) is building shareholder value through existing and entrepreneurial business units that meet continuing and growing demand from China, the largest market in human history.

Iron Ore

With WISCO and Minmetals, both Global Fortune 500 Chinese strategic partners, Century owns one of the largest iron ore mineral resource bases in the world, across five projects in Quebec and Newfoundland and Labrador. Joyce Lake, a direct shipping ore project in Newfoundland and Labrador, is our most advanced project. It has completed feasibility and permitting studies and can be brought to production within approximately 30 months. We are maintaining our properties in preparation for a return to higher iron ore prices.

Base and Precious Metals investment

Century is monitoring investment and acquisition opportunities. When the right opportunity presents itself, our strong balance sheet will allow us to invest or acquire undervalued assets during the current down-cycle, positioning ourselves for gains when the market improves.

Quality Food Services

Quality food products sourced from advanced countries are in great demand from the quickly-growing middle class in China. The emphasis is on the need for safe, high-quality food products. Century has established a professional marketing team and built a distribution system to serve Hong Kong and eventually throughout China. Initial successes include contracts with one of the largest egg producers in Australia and supply contracts with hotels, restaurants, grocery chains as well as an international airline.

Business Development

Century's award-winning team has harnessed multidisciplinary expertise to build a proprietary bilingual Chinese/English mining investment evaluation and tracking system. The database tracks daily over 1,500 globally listed mining and mineral resource companies with a primary focus on gold and copper and their

3,000 projects. We are now commercializing the technology for use by retail and institutional investors as well as mining professionals worldwide. Century Mining Database can be accessed via www.centurymining.cn.

Century's website is www.centuryglobal.ca.
