1. Nature of operations

Century Global Commodities Corporation (the "Company") is a limited liability company incorporated in Canada. In February 2016, the Company completed the continuation of its jurisdiction of incorporation from Canada to the Cayman Islands ("Continuation"). Its registered address is PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. The Company's shares are traded on the Toronto Stock Exchange ("TSX").

The Company is a diversified company and primarily engages in exploration and mining activities with assets in the Provinces of Newfoundland and Labrador, and Québec, Canada. It also has operations in the distribution of food in Hong Kong.

These condensed consolidated interim financial statements were approved by the Board of Directors for issue on August 12, 2021.

2. Basis of preparation

The condensed consolidated interim financial statements of the Company and its subsidiaries (the "Group") have been prepared in accordance with IAS 34 *Interim Financial Reporting*. The condensed consolidated interim financial statements should be read in conjunction with the Group's audited consolidated annual financial statements for the year ended March 31, 2021 filed on SEDAR at www.sedar.com on June 29, 2021, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

3. Significant accounting policies

The significant accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those disclosed in note 3 of the audited consolidated annual financial statements for the year ended March 31, 2021, except for the adoption of new and amended standards that became applicable to the Group in the current interim period, as described in note 4 below.

Basis of measurement

The condensed consolidated interim financial statements have been prepared under the historical cost convention. These condensed consolidated interim financial statements are presented in the Canadian Dollar, which is the Group's presentation currency.

Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

June 30, 2021

(Expressed in Canadian Dollars, unless otherwise stated)

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognized in profit or loss. Contingent consideration that is classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

Goodwill is initially measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree and the fair value of the Group's previously held equity interest in the acquiree (if any), the excess is recognized immediately in profit or loss as a bargain purchase gain.

4. Changes in accounting policies

Several amendments and interpretations apply for the first time in the current reporting period, but do not have an impact on the interim condensed consolidated financial statements of the Group.

On April 1, 2021, the Group applied Amendment to IFRS 16: Covid-19-Related Rent Concessions beyond 30 June 2021 in its condensed consolidated interim financial statements. This amendment is effective for annual periods beginning on or after April 1, 2021 with earlier application permitted, including in financial statements not yet authorised for issue at March 31, 2021. The amendment is to be applied retrospectively, recognising the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment.

A lessee that had elected to apply the practical expedient in accordance with the amendment issued in May 2020 must apply the extended practical expedient in accordance with the amendment issued in March 2021. A lessee who had previously elected not to apply the practical expedient to eligible rent concessions is not permitted to elect to apply the extended practical expedient.

5. Critical accounting estimates and judgments

The Group makes estimates and assumptions concerning the future that are believed to be reasonable under the circumstances. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations about future events. The critical accounting estimates and judgments applied in these condensed consolidated interim financial statements are consistent with those disclosed in note 6 of the audited consolidated annual financial statements for the year ended March 31, 2021.

6. Segment information

The Group's operating segments are as follows:

- (i) the mining segment, which engages in the exploration and development of mineral projects in Canada and the investment in global mining securities;
- (ii) the food segment, which engages in the distribution of food and the provision of food service in Hong Kong; and
- (iii) the corporate segment, which mainly represents the Group's corporate and managerial functions. Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the condensed consolidated interim financial statements. In measuring segment performance, segment assets and segment liabilities, management applied certain judgments and assumptions to determine the appropriate allocation of certain centrally incurred costs, jointly used or shared assets and liabilities for individual segment. However, the Group's financing activities (including cash and cash equivalents, short term bank deposits and bank interest income) are managed on a Group basis and are presented under the corporate segment.

The following tables present information for the Group's operating segments for the three months ended June 30, 2021 and 2020, respectively.

7. Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income ("FVTOCI") comprise marketable securities and other equity investments. During the period, the Group invested in certain equity securities in Canada, Hong Kong and Australia. The Group has elected to designate these investments as at FVTOCI.

An analysis of financial assets at FVTOCI as at the balance sheet date is as follows:

		June 30, 2021 \$	March 31, 2021 \$

The Group's iron ore properties comprise five major properties, namely the Joyce Lake property, the Hayot Lake property, the Black Bird property, the Full Moon property and the Duncan Lake property. As of June 30, 2021, the Group has a 92% interest in the Joyce Lake property, 100% interest in the Hayot Lake property, the Black Bird property and the Full Moon property, and a 68% registered interest in the Duncan Lake property.

The Joyce Lake property

The Joyce Lake property is a direct shipping ore ("DSO") project. It is located in Newfoundland and Labrador, approximately 20 kilometres from the town of Schefferville, Québec.

The Hayot Lake property

The Hayot Lake property is a taconite deposit located approximately 23 kilometres northwest of the Joyce Lake DSO project and 22 kilometres north of the town of Schefferville, Québec.

The Black Bird property

The Black Bird DSO deposit is located 65 kilometres northwest of Schefferville, Québec and approximately 50 kilometres from the Joyce Lake DSO project in Labrador.

The Full Moon property

Full Moon is a taconite project located approximately 80 kilometres northwest of the town of Schefferville, Ouébec.

Acquisition of the Attikamagen and the Sunny Lake properties

The Joyce Lake DSO project and the Hayot Lake taconite project were formerly collectively known as the Attikamagen properties, while the Black Bird DSO project and the Full Moon taconite project were formerly collectively known as the Sunny Lake properties. Prior to the completion of the Acquisition, the Group's interests in the Attikamagen properties were held through Labec Century, a joint venture company in which the Group had an ownership of 60%, with the other 40% owned by WISCO Canada ADI Resources Development & Investment Limited ("WISCO ADI"). Labec Century had a 100% registered interest in the Attikamagen properties. The Group also had an 81.1% interest in the Sunny Lake properties and a 60% shareholding in Century Sunny Lake, the operating company of the Sunny Lake joint venture with WISCO ADI.

On November 19, 2020, the Group completed the acquisition from WISCO ADI of WISCO ADI's joint venture interests in the Attikamagen and the Sunny Lake properties (the "Acquisition"). As a result of the completion of the Acquisition, the Company is the owner of a 100% interest in each of these projects through its wholly-owned subsidiaries. The Group's joint venture agreements on the Attikamagen and the Sunny Lake properties with WISCO ADI were also terminated.

Duncan Lake property

The Duncan Lake property is a magnetite deposit located in the James Bay area approximately 50 kilometres south of Radisson, Québec.

On May 20, 2008, the Company's wholly-owned subsidiary Canadian Century Iron Ore Corporation ("Canadian Century") entered into an option and joint venture agreement (the "Augyva Agreement") with Augyva Mining Resources Inc. to have an option to obtain a 51% interest in the Duncan Lake property once \$6.0 million has been funded on or before the fourth anniversary of the date of the Augyva Agreement, and an additional option to obtain a further 14% of the property by spending an additional \$14.0 million in exploration costs, construction, and/or operating costs or completing a feasibility report on or before the eighth anniversary of the date of the Augyva Agreement. The Company has completed the funding and spending requirements and obtained a 65% registered interest in the property. In July 2020, the Group has completed the registration of an additional 3% interest as a result of its contribution to the exploration expenditure incurred to the property.

Impairment assessment of iron ore properties

At March 31, 2016, with the weakening iron ore market condition, an impairment review was performed on both the Duncan Lake property and Sunny Lake properties, and the review has resulted in impairment charges of \$17,494,260 and \$3,160,465 to the Duncan Lake property and Sunny Lake properties, respectively. After the impairment charges, the net book value of both properties became nil. Further details about the assumptions and conditions pertaining to the impairment review are provided in note 15 of the audited consolidated annual financial statements for the year ended March 31, 2016.

At June 30, 2021, there have been no indicators of impairment and the impairment provisions on the above two properties remain unchanged. In the event that the prospects for the development of the mineral projects are enhanced in the future, an assessment of the recoverable amount of the projects will be performed at that time, which may lead to a reversal of part or all of the impairment that has been recognized.

14. Share capital

Authorized

Prior to the Continuation, authorized share capital was unlimited number of common shares, with no par value. Upon the Continuation on February 1, 2016, authorized share capital was changed to 5,000,000,000 ordinary shares, with \$0.001 par value each.

Issued and fully paid

At June 30, 2021, the Company had 98,504,571 ordinary shares issued and outstanding, representing an amount of \$117,057,236. There is no change in issued share capital for the period.

The Group has adopted an equity incentive plan (the "Plan") which is administered by the Board of Directors of the Group. The Plan provides that the Board of Directors of the Group may from time to time, at its discretion and in accordance with TSX requirements, grant to directors, officers, employees and consultants to the Group, options to purchase shares and other forms of equity-based incentive compensation, provided that the number of shares issued and reserved for issuance will not exceed 15% of the issued and outstanding shares.

Share options

Share options granted under the Plan are exercisable for a period of up to 5 years or 10 years from the date of grant. Options issued pursuant to the Plan will have an exercise price determined by the directors of the Group provided that the exercise price shall not be less than the price permitted by the TSX.

On June 25, 2021, the Company granted 150,000 share options to its consultants. The fair value of the options granted has been estimated at the date of grant using the Black-Scholes option pricing model, using the following assumptions: an average risk-free interest rate of 0.82%, dividend yield of 0%, volatility of 72.41% and an expected life of 10 years. All share options are fully vested upon grant. The fair value of the options granted based on the model is \$0.18 per unit.

20. Disposal of a subsidiary

On June 3, 2020, CMI, the Company's subsidiary engaging in the exploration of mineral properties located in the Province of Québec, Canada, completed the acquisition of all the issued and outstanding shares of Reyna Silver Corp. ("Reyna Silver"). Upon closing of the transaction, CMI changed its name to Reyna Silver Corp., and the majority of the entity's outstanding shares is owned by the former shareholders of Reyna Silver, while the Group retains an interest of 3.67%. As a result, the Group is deemed to have disposed of CMI after the transaction. Subsequent to the transaction, the Group accounted for its interest in CMI as an investment designated as at FVTOCI, and classified it as marketable securities in the consolidated statement of financial position as at March 31, 2021.

23. Financial risk management

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk including interest rate risk, foreign currency exchange risk and capital market risk.

Risk management is carried out by the Group's management team with guidance from the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

The Group's financial assets and financial liabilities have been classified into categories that determine their basis of measurement. As at June 30, 2021 and March 31, 2021, the Group's financial instruments are comprised of cash and cash equivalents, short term bank deposits, marketable securities, investment in other equity instruments, trade and other receivables, trade and other payables. With the exception of cash and cash equivalents, marketable securities and investment in other equity instruments, all other financial instruments of the Group are measured at amortized cost.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

June 30, 2021

(Expressed in Canadian Dollars, unless otherwise stated)

The following table shows the carrying values, fair values and fair value hierarchy of the Group's financial instruments that are measured at fair value as at June 30, 2021 and March 31, 2021:

		June 30, 2021		March 31, 2021	
	Level	Carrying value \$	Fair value \$	Carrying value \$	Fair value \$
Marketable securities	1	1,484,156	1,484,156	1,609,750	1,609,750

	_	1,558,608	1,558,608	1,685,047	1,685,047

Fair values of financial instruments are determined by valuation methods depending on hierarchy levels as defined below:

- Level 1 Quoted market price in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted market prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. observed prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the assets or liabilities are not based on observable market data.

The movements in fair value measurements within Level 3 are as follows:

	\$
Balance – March 31, 2020	70,306
Purchases	12,692
Exchange differences	(7,701)
Balance – March 31, 2021	75,297

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Group's credit risk is primarily attributable to cash, marketable securities and receivables. Cash and cash equivalents and short term bank deposits are held with major banks, and marketable securities are held with a reputable securities broker with investment guidelines set by management which are intended to limit credit risk. The Group's receivables mainly represented the amount owing from its third party customers. Management believes the risk of loss to be minimal.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

June 30, 2021

(Expressed in Canadian Dollars, unless otherwise stated)

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group has recognized a loss allowance of 100% against all trade receivables over one year past due because historical experience has indicated that these receivables are generally not recoverable. No provision has been made for trade receivables that are past due for less than one year as these receivables are generally recoverable based on historical experience.

Liquidity risk

The Group's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As of June 30, 2021, the Group has cash and cash equivalents and short-term bank deposits of \$12,691,025 (March 31, 2021: \$11,634,712) to settle current liabilities of \$3,428,845 (March 31, 2021: \$2,552,072). Most of the Group's financial liabilities have contractual maturities of 30 days or less and are subject to normal trade terms. The Group's objective for liquidity risk management is to maintain sufficient liquid financial resources to fund the consolidated balance sheets, pursue growth and development strategies, and to meet commitments and obligations in the most cost-effective manner possible. The Group achieves this by maintaining sufficient cash and cash equivalents and managing working capital. The Group monitors its financial position on a monthly basis at minimum.

Market risk

Market risk is the risk of loss that may arise from changes in market factors, such as interest rates and foreign currency exchange rates and the movement in capital markets.

(a) Interest rate risk

The Group has cash balances only and it has no interest-bearing debt. The Group's current policy is to invest most of its excess cash in interest bearing accounts or term deposits with large reputable banks. The Group periodically monitors the investments it makes and is satisfied with the credit ratings of the banks holding the cash and short-term deposits of the Group. An absolute increase or decrease of 1% in the annual interest rate would not have a material impact on the net profit/loss or equity at June 30, 2021.

(b) Foreign currency exchange risk

The Group's principal functional currencies are the Canadian Dollar and the Hong Kong Dollar. Sales revenue of the Group's food distribution business is mainly denominated in Hong Kong Dollar, while the major purchases of the business are denoted in US Dollar, Australian Dollar and Euro. The major expenses of the Group are transacted in Canadian Dollar and Hong Kong Dollar. The Group is also subject to exchange fluctuations arising from the translation of the foreign currency monetary items of the Group's overseas subsidiaries. In addition, the Group's marketable securities, if partially denominated in foreign currency, are subject to foreign currency exchange risk.

Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)

June 30, 2021

(Expressed in Canadian Dollars, unless otherwise stated)

Management closely monitors the exchange fluctuations of the principal foreign currencies of the Group's food distribution business and uses means to lock up the foreign currency exchange rate of its purchases or transfers exchange differences to its customers to reduce the Group's foreign currency exposures. Management believes the foreign currency exchange risk derived from its other activities is low and therefore does not hedge the foreign currency exchange risk arising from these other activities.

(c) Capital market risk

The Group's current policy is to invest some portion of its excess cash in marketable securities, primarily shares of publicly listed mining companies. The Group sets investment guidelines, including pre-set targeted capital allocation and returns, exit and entry prices, and periodically monitors the investments it makes. The Group is satisfied with the financial and operating performance of the mining companies the Group invests in. An absolute increase or decrease of 5% in the investment return would not have a material impact on the net profit or equity at June 30, 2021.

24. Capital management

The Group considers its capital structure to consist of share capital, contributed surplus and deficit, which, as at June 30, 2021, amounted to \$21,731,574. When managing capital, the Group's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to the shareholders and benefits for other stakeholders. Management adjusts the capital structure, as necessary, in order to support the acquisition, exploration and development of its mineral properties. The Board of Directors does not establish a quantitative return on capital criteria for management but, rather, relies on the expertise of the Group's management team to sustain the future development of the business.

The Group is dependent on external financing to fund its strategic initiatives and exploration and project development activities in the long term. In order to carry out the business plan and pay for administrative costs, the Group will utilize its existing working capital and raise additional amounts when economic conditions permit it to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Group, is appropriate. The Group's capital management objectives, policies and processes have remained unchanged during the period ended June 30, 2021. The Group is not subject to externally imposed capital requirements.
