INFORMATION CIRCULAR

(unless otherwise specified, information is as of August 12, 2021)

This Information Circular is furnished in connection with the solicitation of proxies by the management of Century Global Commodities Corporation (the “**Company**”) for use at the annual general meeting (the “**Meeting**”) of the Company (and any adjournment thereof) to be held on September 20, 2021 at the time and place and for the purposes set forth in the accompanying Notice of Annual General Meeting of Shareholders.

In this Information Circular, references to the “**Company**”, “**we**” and “**our**” refer to the Company. “**Shares**” mean ordinary shares in the share capital of the Company. “**Beneficial Shareholders**” means shareholders who do not hold shares in their own names and “**intermediaries**” refers to brokers, investment firms, clearing houses and similar entities that own securities on behalf of Beneficial Shareholders.

The Board of Directors of the Company (the “**Board**”) has approved the contents and the sending of this Information Circular. All dollar amounts referred to herein are expressed in Canadian dollars unless otherwise indicated.

GENERAL PROXY INFORMATION

Solicitation of Proxies

The solicitation of proxies will be primarily by mail, but proxies may be solicited personally or by telephone by directors, officers and regular employees of the Company. The Company will bear all costs of this solicitation. We have arranged for intermediaries to forward the meeting materials to Beneficial Shareholders whose shares are held as of record by those intermediaries and will reimburse the intermediaries for their reasonable fees and disbursements in that regard.

Appointment of Proxyholders

Sandy Chim and Bonnie Leung, the individuals named in the accompanying form of proxy (the “**Proxy**”) as proxyholders, are respectively the President & CEO and CFO & Co-Secretary of the Company. **If you are a shareholder entitled to vote at the Meeting, you have the right to appoint a person or company other than either of the persons designated in the Proxy, who need not be a shareholder, to attend and act for you on your behalf at the Meeting. You may do so either by inserting the name of that other person in the blank space provided in the Proxy or by completing and delivering another suitable form of proxy.**

Voting by Proxyholder

The persons named in the Proxy as proxy holders will vote for, against or abstain from voting the shares represented thereby in accordance with your instructions on any ballot that may be called for. If you specify a choice with respect to any matter to be acted upon, your shares will be voted accordingly. The Proxy confers discretionary authority on persons named therein with respect to:

- a) each matter or group of matters identified therein for which a choice is not specified, other than the appointment of an auditor and the election of directors;
- b) any amendment to or variation of any matter identified therein; and
- c) any other matter that properly comes before the Meeting.

In respect of a matter for which a choice is not specified in the Proxy, the persons named in the Proxy will vote the shares represented by the Proxy in favor of each matter identified on the Proxy and for the nominees of management for directors and auditors as identified in the Proxy, as applicable.

Registered Shareholders

If you are a registered shareholder, you are encouraged to vote by proxy whether or not you attend the Meeting in person. If you submit a proxy, you must complete, date and sign the Proxy and return it to the Company's transfer agent, TSX Trust Company ("TSX Trust") by the deadline specified in the Proxy. Registered shareholders who elect to submit a Proxy may do so online at www.voteproxyonline.com by entering the control number printed on the form of proxy, by fax at 1-416-595-9593, or by mail to 100 Adelaide St. W, Suite 301, Toronto, Ontario, Canada, M5H 4H1, in all cases in accordance with the instructions provided by TSX Trust in the enclosed proxy materials and ensuring that the Proxy is received at least 48 hours (excluding Saturdays, Sundays and holidays) before the Meeting or any adjournment thereof at which the Proxy is to be used.

Each registered shareholder can appoint any person (who need not be a registered shareholder or even a Beneficial Shareholder of the Company), other than any of the persons designated in the Proxy, to represent that registered shareholder's shares at the Meeting, and that person may even be the registered shareholder representing himself, herself or itself. To exercise this right, a registered shareholder must insert the name of the person who is to be appointed as her, his or its representative (which may be that registered shareholder) in the blank space provided in the Proxy that will be provided for the Meeting.

Beneficial Shareholders

The information in this section is of significant importance to shareholders who do not hold shares registered in their own name. Beneficial Shareholders should note that the only proxies that can be recognized and acted upon at the Meeting are those deposited by registered shareholders (those whose names appear on the register of members of the Company as the registered holders of shares) or the persons they appoint as their proxyholders, or as set out in the following disclosure.

If shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those shares will not be registered in the shareholder's name on the register of members of the Company. Those shares will more likely be registered under the names of an intermediary such as the shareholder's broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co. (the registration name for The Canadian Depository for Securities Limited, which acts as nominee for many Canadian brokerage firms), and in the United States, under the name of Cede & Co. as nominee for The Depository Trust Company (which acts as depository for many U.S. brokerage firms and custodian banks).

Intermediaries are required to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. Every intermediary has its own mailing procedures and provides its own return instructions to clients.

There are two kinds of Beneficial Shareholders: those who object to their name being made known to the issuers of securities which they own (referred to as "**OBOs**" or "**Objecting Beneficial Owners**") and those who do not object to the issuers of the securities they own knowing who they are (referred to as "**NOBOs**" or "**Non-Objecting Beneficial Owners**").

NOBOs – Non-Objecting Beneficial Owners

The Company is taking advantage of provisions of National Instrument 54-101 – *Communication with Beneficial Owners of Securities of a Reporting Issuer* of the Canadian Securities Administrators permitting the Company to deliver proxy-related materials directly to its NOBOs. As a result, NOBOs can expect to receive a Voting Instruction Form ("**VIF**") from TSX Trust. NOBOs should complete and return these VIFs in accordance with the instructions provided by TSX Trust on the VIF. Those instructions will include options for submitting VIFs by mail, by fax at 1-

416-595-9593 or online at www.voteproxyonline.com by entering the control number printed on the VIF. TSX Trust will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting as to the instructions provided by NOBOs on their VIFs. However, notwithstanding that these instructions from NOBOs are being tabulated by TSX Trust and relayed at the Meeting, NOBOs and their intermediaries should note that only registered shareholders or their duly appointed representatives are entitled to vote at and be present at the Meeting, and the instructions provided by NOBOs through VIFs must nonetheless be transmitted to the Company through Proxies or other proper instruments from registered shareholders such as the intermediaries of those NOBOs.

This Information Circular, with related materials, is being sent to both registered and non-registered owners of the shares of the Company. For any shareholder who is a NOBO, if the Company or its agent has sent the Meeting materials directly to that shareholder, the shareholder's name and address, as well as the information about Company shares held by NOBO, has been obtained in accordance with applicable securities rules from the intermediary who holds those shares on behalf of the NOBO.

Each NOBO can appoint a person (who need not be a Beneficial Shareholder of the Company), other than any of the persons designated in the VIF, to represent that NOBO's shares at the Meeting, and that person may even be the Beneficial Shareholder representing himself, herself or itself. To do so, a NOBO must insert the name of the person who is appointed as her, his or its representative (which may be that NOBO) in the blank space provided in the VIF.

By choosing to send these materials to NOBOs directly, the Company (and not the intermediary holding shares on behalf of a NOBO) has assumed responsibility for (i) delivering Meeting materials to each NOBO, and (ii) executing the NOBO's proper voting instructions.

OBOs – Objecting Beneficial Owners

The VIF that will be supplied to OBOs by their brokers will be similar to the Proxy provided to registered shareholders by the Company, and to the VIF provided to NOBOs. However, its purpose is limited to instructing the intermediary how to vote the shares of an OBO.

The Company cannot directly or through an agent send Meeting materials to OBOs, as the identity of OBOs is not known to the Company. Most brokers delegate responsibility for sending shareholder meeting materials to OBOs, and for obtaining instructions from OBOs, to Broadridge Financial Solutions, Inc. ("**Broadridge**") in Canada and in the United States. Broadridge and any other intermediary sending Meeting materials to OBOs will mail their own form of VIF in lieu of the Proxy provided by the Company. Unless duly modified by an OBO, the persons named in the VIF provided to him, her or it to represent the shares of that OBO at the Meeting will be the same as those named in the Company's Proxy to represent the registered shareholders.

To ensure that their shares are voted at the Meeting, OBOs should carefully follow the instructions of their broker or intermediary as to how to communicate their voting and related instructions with respect to their shares for the Meeting. In most cases, those instructions will provide the ability to vote by mail, by fax or online.

Normally, an OBO can appoint a person (who need not be a Beneficial Shareholder of the Company), other than any of the persons designated in the VIF, to represent that OBO's shares at the Meeting, by following the instructions provided in or with the VIF. An OBO's appointed representative may even be the Beneficial Shareholder representing himself, herself or itself. To do so, the VIFs typically provided by intermediaries to their OBOs require that the OBO insert the name of a desired representative (which may be the Beneficial Shareholder) in the blank space provided in the VIF.

Completed VIFs must be submitted in accordance with the instructions for the VIF. Those completed VIFs will then be tabulated, and appropriate instructions regarding the votes submitted by OBOs (and any appointments of parties to represent OBOs) will then be submitted for the Meeting. OBOs and their intermediaries should note that only registered shareholders or their duly appointed representatives are entitled to vote at and be present at the Meeting, and the instructions provided by OBOs through VIFs must nonetheless be transmitted to the Company through Proxies or other proper instruments from registered shareholders such as the intermediaries of those OBOs.

Notice to Shareholders in the United States

The solicitation of proxies involves securities of an issuer registered in the Cayman Islands and reporting in Canada and is being effected in accordance with the corporate laws of the Cayman Islands and securities laws of the provinces of Canada. The proxy solicitation rules under the *United States Securities Exchange Act of 1934*, as amended, are not

applicable to the Company or this solicitation, and this solicitation has not been prepared in accordance with those disclosure requirements. Shareholders should be aware that disclosure requirements under the securities laws of the provinces of Canada differ from the disclosure requirements under United States securities laws.

The enforcement by shareholders of civil liabilities under United States federal securities laws may be affected adversely by the fact that the Company is incorporated under the *Companies Law (2013 Revision) of the Cayman Islands* (“**Cayman Islands Companies Law**”), certain of its directors and its executive officers are residents of Canada and countries other than the United States, and all of the assets of the Company and a substantial portion of the assets of such persons are located outside the United States. Shareholders may not be able to sue a foreign company or its officers or directors in a foreign court for violations of United States federal securities laws. It may be difficult to compel a foreign company and its officers and directors to subject themselves to a judgment by a United States court.

Revocation of Proxies

In addition to revocation in any other manner permitted by law, a shareholder who has given a proxy may revoke it by executing a proxy bearing a later date or by executing a valid notice of revocation, either of the foregoing to be executed by the shareholder or by his, her or its authorized attorney in writing, or, if the registered shareholder is a corporation, under its corporate seal by an officer or attorney duly authorized, and by delivering the proxy bearing a later date to TSX Trust at 100 Adelaide St. W, Suite 301, Toronto, Ontario, Canada M5H 4H1, or at the offices of the Company at any time up to and including the last business day that precedes the day of the Meeting or, if the Meeting is adjourned, the last business day that precedes any reconvening thereof, or to the chairman of the Meeting on the day of the Meeting or any reconvening thereof, or in any other manner provided by law, or by personally attend the Meeting. Such a shareholder may revoke a prior proxy by voting the registered shareholder’s shares at the Meeting.

A revocation of a proxy will not affect a matter on which a vote is taken before the revocation.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

To the best of our knowledge, except as otherwise disclosed herein, no director or executive officer of the Company, nor any person who has held such a position since the beginning of the last completed financial year of the Company, nor any proposed nominee for election as a director of the Company, nor any associate or affiliate of the foregoing persons, has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted on at the Meeting other than the election of directors or the appointment of auditors, all as set out herein.

RECORD DATE AND PRINCIPAL HOLDERS OF VOTING SECURITIES

Record Date and Outstanding Shares

The Board has fixed August 10, 2021 as the record date (the “**Record Date**”) for determining the shareholders entitled to receive notice of and to vote at the Meeting. Only shareholders of record at the close of business on the Record Date who either attend the Meeting personally or complete, sign and deliver a Proxy in the manner and subject to the provisions described above will be entitled to vote or to have their shares voted at the Meeting.

As of the date of this Information Circular, the ordinary shares of the Company are listed for trading on the Toronto Stock Exchange (the “**TSX**”). The Company is authorized to issue ordinary shares and different classes or series of shares up to a maximum of 5,000,000,000 shares, with \$0.001 par value each, having a maximum aggregate par value of \$5,000,000. As of the Record Date, there were 98,504,571 ordinary shares, issued and outstanding, each carrying the right to one vote, and there were no other shares of any class outstanding. There are no other class of shares issued and outstanding as at the Record Date. No group of shareholders has the right to elect a specified number of directors, nor are there cumulative or similar voting rights attached to the shares.

Principal Holders of Ordinary Shares of the Company

To the knowledge of the directors and executive officers of the Company, the only persons or companies that beneficially own, or control or direct, shares carrying 10% or more of the voting rights attached to all outstanding shares of the Company as at the Record Date are:

Shareholder name	Number of ordinary shares held ⁽¹⁾	Percentage of issued ordinary shares ⁽²⁾
WISCO International Resources Development & Investment Limited	23,197,768	23.5%
Ben Koon (David) Wong and Purple Star Holdings Limited ⁽³⁾	24,701,628	25.1%
Sandy Chim and Thriving Century Limited ⁽⁴⁾	18,025,317	18.3%

Notes:

1. Information obtained from the insider reports available under the Company's profile on SEDI at www.sedi.ca.
2. Percentage calculation was based on 98,504,571 ordinary shares of the Company outstanding as at the Record Date.
3. Purple Star Holdings Limited, which holds 24,691,628 ordinary shares, is a British Virgin Islands ("BVI") holding company of which Mr. Ben Koon (David) Wong, a former director of the Company from May 18, 2011 to September 19, 2019, is a controlling shareholder. Mr. Wong also holds 10,000 ordinary shares directly.
4. Thriving Century Limited, which holds 15,263,917 ordinary shares, is a BVI holding company of which Mr. Sandy Chim, President and Chief Executive Officer and a director of the Company, is a controlling shareholder. The remaining balance of 2,761,400 ordinary shares are held directly by Mr. Chim.

MATTER #1 - FINANCIAL STATEMENTS

The audited consolidated financial statements of the Company for the most recently completed financial year and the report of the auditor thereon will be placed before shareholders at the Meeting for their consideration. No formal action will be taken at the Meeting to approve the financial statements. If any shareholder has questions regarding such financial statements, such questions may be brought forward at the Meeting.

VOTES NECESSARY TO PASS RESOLUTIONS

The resolutions proposed in this Information Circular and any other resolutions arising from the other matters described herein must be approved by holders of a simple majority of the votes of shareholders properly cast at the Meeting, whether in person or by proxy (an "**Ordinary Resolution**").

MATTER #2 - ELECTION OF DIRECTORS

The Memorandum and Articles of Association of the Company (the "**Articles**") currently provide that the number of directors of the Company will be a minimum of three and a maximum of twelve. In accordance with the Articles, the Board has fixed the number of directors at seven.

The Articles of the Company provide that every director of the Company shall retire from office at the Company's annual general meeting of shareholders, and the term of office of each of the current directors will therefore end at the Meeting. Unless a director's office is vacated earlier in accordance with the provisions of the Cayman Islands Companies Law or the Company's Articles, each director elected at the Meeting will commence serving on the Board at the Meeting, and she or he will hold office until the conclusion of the next annual general meeting of shareholders of the Company.

Election of Directors and Majority Voting Policy

With respect to the election at the Meeting of the nominees to the Board of Directors, the Proxy or VIF that shareholders of the Company will receive permits shareholders to vote separately "for", "against" or "abstain" for each director nominee. To be elected as a director by the shareholders, under the Cayman Islands Companies Law and the Articles a nominee must receive a majority of the votes cast on her or his candidacy. This is consistent with the majority voting policy adopted by the TSX.

If fewer than seven directors are elected by simple majority vote of the shareholders, then following the Meeting the Board will be comprised of fewer than seven directors and the Board could then consider whether to fill the vacant seat or seats on the Board.

Shareholders should also note that in the event of a contested election, where the number of nominees for director positions exceeds the number of seats on the Board, only nominees who receive a simple majority of votes cast in favor of their election are eligible to serve on the Board (the “**Qualified Directors**”), and in accordance with the Articles those Qualified Directors who receive the greatest number of votes, in declining order, will take seats on the Board until all available seats have been filled.

Subject to applicable laws and the Articles, the voting method to be applied for purposes of electing directors at the meeting will otherwise be determined by the chair of the meeting in his or her sole discretion.

Nominees for Election and Board Recommendation

The directors of the Company have determined that the number of directors for the ensuing year will be seven. All of the nominees for election at the Meeting are currently directors of the Company. All the nominees have agreed to stand for election. If, however, one or more of them should become unable to stand for election, it is likely that one or more other persons would be nominated for election at the Meeting.

The Board of Directors unanimously recommends that shareholders vote “FOR” the election of the directors nominated by the Board.

In connection with the closing of the Qualifying Transaction of the Company on May 18, 2011 (the “**Qualifying Transaction**”), and further to the concurrent equity investment in the Company by WISCO International Resources Development & Investment Limited (“**WISCO**”), the Company entered into an investment agreement with WISCO (the “**Investment Agreement**”) which effectively provides that, if WISCO owns 10% or more of the outstanding shares of the Company on a non-diluted basis, WISCO will have the right to nominate, after consultation with the Company, a number of directors of the Company. (Pursuant to a merger, WISCO is now owned by China Baowu Steel Group Corporation, a China state owned enterprise.) The number of directors that may be nominated by WISCO pursuant to the terms of the Investment Agreement will be determined from time to time based on: (a) the percentage of the ordinary shares of the Company held by WISCO, and (b) the number of directors comprising the Board of the Company from time to time, with the product rounded down to the nearest whole number of directors. On the basis of WISCO’s current equity interest in the Company and the number of directors proposed for election at the Meeting, WISCO currently has the right to designate one individual as its nominee to the Board. WISCO has advised that either Mr. Yiyan Chen or Mr. Jianlong Yang can be considered as its nominee to the Board, and as both are currently Directors and are able to continue as Directors, the Board is nominating and recommending the re-election of both to the Board.

The following disclosure sets out: (a) the names of management’s seven nominees for election as directors, (b) their major offices and positions with the Company, including service on committees of the Board since the last annual and special meeting of shareholders, (c) their principal occupation, business or employment, (d) the period of time during which each has been a director of the Company, and (e) the number of shares beneficially owned by each, directly or indirectly, or over which each exercised control or direction, as at the Record Date. For each nominee’s principal occupation, business or employment for the five preceding years, see “*Matter #2 – Election of Directors – Principal Occupation, Business or Employment of Nominees*”.

Unless authority to do so with respect to one or more directors is withheld, the persons designated as proxyholders in the accompanying Proxy intend to vote the Shares represented by such Proxy, properly executed for the election of each of the nominees set forth in the following disclosure. The Company’s management does not contemplate that any of the nominees will be unable to serve as a director, but if that should occur for any reason prior to the Meeting, it is intended that discretionary authority will be exercised by the persons named in the accompanying Proxy to vote any proxy for the election of any other person or persons in place of any nominee or nominees unable to serve.

CORPORATE GOVERNANCE

Corporate Governance

Corporate governance refers to the policies and structure of the board of directors of a company, whose members are elected by and accountable to the shareholders of the Company. Corporate governance encourages establishing a reasonable degree of independence of the board of directors from executive management and the adoption of policies to ensure the board of directors recognizes the principles of good management. As of the date of this Information Circular, the Company has adopted the following corporate governance guidelines and policies:

Board of Directors

The Board of the Company facilitates its exercise of independent supervision over management by ensuring representation on the Board by directors who are independent of management and by promoting frequent interaction and feedback.

Directors are considered to be independent if they have no direct or indirect material relationship with the Company. A “material relationship” is a relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director’s independent judgment.

With a view to determining independent directors, the Board has reviewed the relationship between the Company and each person nominated for election as a director of the Company, as well as the relationship between the Company and other individuals who were directors in the 2020-2021 financial year or currently in the 2021-2022 financial year. 6. Member of the Audit Committee in the 2020-2021 financial year and to date in the 2021-2022 financial year.

As noted above, the Board is comprised of four non-independent directors and three independent directors which means that a majority of the directors are non-independent. However, the exercise of independent judgment by the Board is fostered in a number of ways. For example, the independent directors comprise all of the members of the Audit Committee and Compensation Committee of the Board, and they comprise a majority of the members of the Governance and Nominating Committee of the Board. (Currently, these are the only active committees of the Board of Directors.) In addition, the majority of Chairs of all Board committees are independent directors. Also, the Board regularly meets in camera without the participation of directors who are also officers of the Company.

With a view to fostering independent judgment and oversight, the Board considers the independence of directors in determining which directors are to serve on committees, taking into account the roles of the committees and the likelihood that the independence of directors will be important to the committee in discharging its responsibilities.

Furthermore, the Board encourages independent Board members to discuss all matters with other independent directors and non-independent directors and management in order that they are fully informed and apprised of all matters necessary to make objective decisions as directors. Finally, as discussed below, the independence of the Lead Director is also important in fostering the independent exercise of judgment by the Board.

Exercise of Independence by the Board – the Board Chair and the Lead Director

As previously disclosed in this Circular, management is of the opinion that the Chair of the Board, Sandy Chim, is a non-independent director.

To provide leadership to the independent directors, the Board appointed Howard Bernier from among the independent directors to act as the Lead Director. Mr. Bernier's has served as Lead Director since October 2014 with the unanimous approval of the independent directors of the Board.

The Lead Director's primary role is to provide leadership for the independent directors, assist in managing any conflicts between the Company and any controlling shareholder, to focus on enhancing the effectiveness of the Board and to help ensure that the Board functions in an independent and cohesive fashion. In addition, the Lead Director, through consultation with the Chair of the Board, has the authority to prepare agendas for meetings of the independent directors, to ensure that meetings of the independent directors or in camera sessions are scheduled regularly, to chair such meetings and sessions and to report the results of such meetings and sessions to the Chair of the Board, and where necessary, to the Chief Executive Officer. The Lead Director is responsible for ensuring that directors and management understand the independent role of the Board and the boundaries between the responsibilities of the Board and of management and for identifying and addressing impediments to the Board's ability to function independently of management. In circumstances of conflict by reason of the lack of independence of the Chair of the Board, the Lead Director acts as the liaison between management and the Board to ensure the relationship between management and the Board are conducted in a professional and constructive manner. This includes ensuring that the boundaries between the Board and management are clearly understood and respected by both management and directors.

When warranted, the independent directors can meet, in the absence of management and non-independent directors, at the conclusion of scheduled Board meetings. In addition, where a matter under consideration at a Board meeting warrants it and to ensure that free and candid discussions can take place, the Chair of the Board or Lead Director may request one or more members of management or non-independent directors to withdraw during the discussions of that matter. The Lead Director may also call meetings of independent directors at the request of any independent director or on his own initiative.

The Chief Executive Officer's general mandate is to implement the Company's strategic and operating plans with a view to enhancing shareholder value, as well as to manage the Company on a day-to-day basis reporting to the Board. In the context of directing and overseeing the management of the Company's operations, under the current Mandate of the Chief Executive Officer as adopted by the Board, the CEO is asked to promote a culture of integrity, manage business strategies and plans, manage key members of senior management, oversee financial performance and work with the Board in the Board's exercise of its oversight role.

Committee Chairs

Under the Charters of the Committees of the Board, the Chair of each Committee is responsible for leading the Committee in discharging the Committee's duties, facilitating communications to and within the Committee, facilitating access to management as necessary, organizing and chairing Committee meetings, leading the Committee in its review and assessment of its mandate and effectiveness, working to address continuous education needs and reporting to the Board on Committee matters.

Orientation and Continuing Education

The Governance and Nominating Committee, in conjunction with the Chair of the Board and the Chief Executive Officer, is responsible for reviewing, monitoring and making recommendations to the Board regarding the orientation and education of directors. In addition, the Chairs of each Committee may also advise of continuous education needs.

The Board recognizes the importance of ongoing director education. In order to ensure that the Company's directors maintain the skill and knowledge necessary to meet their obligations as directors, the Governance and Nominating

Committee can canvas the directors to determine their training and education and needs and interests, and facilitate the presentation by outside experts to the Board or committees on matters of particular importance or emerging significance. In addition, Board members are periodically provided guides, memoranda and other materials to assist the Board in understanding and carrying out their obligations in light of legal and regulatory requirements with respect to the Company's operations and governance.

Ethical Business Conduct

The Company's Code of Business Conduct and Ethics governs the behaviour of its directors, officers and employees. The Code sets out expectations for the conduct of the Company's business in accordance with all applicable laws, rules and regulations and the highest ethical standards. When new directors or employees are engaged, they are provided a copy of the Code and required to sign an acknowledgement of having read the Code. This procedure is to be repeated if any significant amendments are made to the Code. The Code will also be circulated annually within the Company. Shareholders may obtain a copy of the Code of Business Conduct and Ethics by contacting Denis Frawley, Co-Secretary or Bonnie Leung, Chief Financial Officer and Co-Secretary, at: 852-3951-8700.

The Code of Business Conduct and Ethics includes procedures and mechanisms for directors, officers, and employees of the Company to report violations of, or concerns regarding, various matters (including financial statement disclosure issues, accounting matters, internal controls, fraud and misrepresentations) in relation to the Code. Where the reporting person does not wish to, or is not able to, discuss a concern with his or her immediate supervisor, reports may be submitted to the Chair of the Audit Committee with respect to financial matters. Reports may be made anonymously. After an investigation of a report of non-compliance with the Code is completed, the matter is reported to the Audit Committee for consideration and appropriate action.

In addition to the procedure for reporting complaints described above, the Company has taken other steps to monitor compliance, including commissioning internal controls and/or other compliance reviews every year.

The Board has in place a number of procedures designed to ensure that directors exercise independent judgment in a matter where a director or officer has a material interest, including the assessment made by the Board as to the independence of its directors, which assessment provides the Board with a current understanding of the areas in which a director may have a material interest in business of the Company, or matters under consideration by the Board. A director who has a conflict of interest regarding any particular matter under consideration by the Board is required to advise the Board, refrain from debate on the matter and abstain from any vote regarding that matter.

Representation of Women on the Board and in Executive Officer Positions

The Board has not adopted a written policy relating to the identification and nomination of women directors, nor has it adopted a target regarding the number or percentage of directors who should be women.

As previously discussed in this Information Circular under "*Corporate Governance-Mandates and Charters Adopted by the Board-Governance and Nominating Committee*", the Governance and Nominating Committee is responsible for, among other things, assessing the skills and competencies needed on the Board, as compared to those possessed by current directors and by candidates for service on the Board. Following that assessment, this committee is responsible for making recommendations to the Board as to candidates to be nominated for election as directors of the Company or appointed to the Board outside of shareholder meetings. Currently, neither the Board nor the Governance and Nominating Committee formally or specifically focuses on the level of representation of women on the Board when considering candidates for election or re-election. However, that may evolve over time and as circumstances permit.

The Company currently has two women serving as director, corresponding to 25% of the Board. Ms. Lee serves as a member and Chair of the Audit Committee, a member of the Governance and Nominating Committee, and a member of the Compensation Committee, playing a particularly prominent role on the Board. If the current nominees to the Board are all elected, one-seventh of the directors will then be women.

Similarly, the Board does not formally and specifically focus on the level of representation of women in executive officer positions when making executive officer appointments, nor has a target been adopted for women in executive officer positions. Currently, the Company has a small management team whose size is reflective of the nature and scope of current operations. Currently, there is one woman serving as executive officer of the Company, which corresponds to 33% of all executive officers of the Company. A material expansion in the size of the Company's senior management is not anticipated as being necessary or appropriate until such time as a decision is made for

the Company to move ahead with the development of one of its projects or to begin significant operations in a new area of activity.

The Company is committed to the fundamental principles of treating people fairly, with respect and dignity, and to offering equal employment opportunities based upon an individual's qualifications and performance and without discrimination or harassment because of factors like race, ethnicity, gender or sexual orientation that are not related to performance. The Company's goal in making hiring decisions, including executive officer positions, is to select candidates based solely upon experience, skills, competencies and ability. Considering the small number of the Company's executive officers and employees, management feels that currently it is not practical for the Company to commit to orienting its hiring decisions with gender representation targets in mind.

Nomination of Directors

The Governance and Nominating Committee oversees the general and specific criteria for candidates to be considered for nomination as directors with a view to ensuring the composition of the Board provides the necessary mix of skills and experience required to guide the long-term strategy and business operations of the Company. As part of this process, the Governance and Nominating Committee considers the competencies and skills required by the Board as a whole, and the particular competencies and skills that each director possesses.

The review will take into account the diversity of background, skills and experience of the directors, being the key characteristics that the Committee believes are required for effective Board participation. All directors are encouraged to identify potential candidates for nomination.

The Committee will screen all prospective nominees and review their particular characteristics and skills against the identified criteria bearing in mind competencies and skills that may be lacking in the composition of the Board from time to time. Consideration will also be given to the perceived ability of a nominee to devote the time and effort needed to fulfilling his or her duties as a member of the Board.

Director Term Limits and Board Renewal

The Company has not adopted a policy regarding director term limits, director retirement or Board renewal. Since the Company completed its Qualifying Transaction in May of 2011, the composition of the Board has changed over time. As a result of these changes, there has been a natural evolution and renewal in the composition of the Board over time. As explained in greater detail previously in this Information Circular (see "*Matter #2 – Election of Directors*"), WISCO currently has the right to designate one individual as nominee to the Board of Directors.

With respect to the current members Board, seven of whom are nominated for re-election at the Meeting, three directors have served since the Company completed its Qualifying Transaction in May 2011, and the other four directors joined the Board in September 2011, June 2019, September 2019 and November 2020.

Each year, the Governance and Nominating Committee reviews the current Board's make-up and the skills and competencies of current directors, including the experience of the directors, to determine if the current board members are appropriate for re-election and will continue to make an effective contribution and whether or not additional or replacement directors are required, given the Company's anticipated activities. The adoption of a fixed policy with respect to Board renewal, or the age of directors, or the duration of a director's membership on the Board, was not considered appropriate for the Company. Currently, the yearly review undertaken by the Governance and Nominating Committee is thought to provide an effective means of evaluating the composition of the Board, the needs of the Company from its Board, and Board renewal.

Compensation

The compensation offered by the Company to its directors, officers and senior management is designed to be motivational and to enable the Company to attract, retain and inspire performance of management of a quality and nature that will enhance the growth and sustainability of the Company. The Compensation Committee is responsible for reviewing and recommending the compensation philosophy and guidelines for the directors and officers of the Company. The Compensation Committee periodically reviews compensation matters and makes recommendations to the Board for consideration and approval when it believes changes in compensation are warranted.

Currently, the principal components of the executive compensation awarded by the Company are a base salary, a short term annual incentive award, and long term incentives in the form of stock options and awards outlined in the

Company’s Equity Incentive Plan, which was filed on SEDAR at www.sedar.com. The Company may include other forms of equity-based compensation as a component of long term incentive compensation. For a discussion of the compensation structure, see “*Executive Compensation – Compensation Discussion and Analysis*”.

Corporate Disclosure Policy

The Board has a Disclosure Policy which is intended to ensure that all material information relating to the Company is communicated appropriately and in a timely manner to the public and shareholders. The policy also applies to the dissemination of annual and quarterly reports, press releases and other reports. In addition to annual general meetings, meetings between management of the Company and various investors and investment analysts occur occasionally, all of which are governed by the Disclosure Policy.

Assessments

In accordance with its Charter, the Governance and Nominating Committee, with input from the Board Chair and the Lead Director, assesses the performance of the Board and its directors. This Committee also reviews the performance of the Board Chair, the Lead Director, Committee Chairs and each Committee. These assessments are taken into account when the Governance and Nominating Committee makes its recommendations to the Board regarding director nominations, as well as regarding specific positions on the Board and its Committees.

Compensation Discussion and Analysis

This section provides information about the Company's compensation-related objectives and procedures. It also includes a discussion of the compensation decisions relating to the Company NEOs listed in the summary compensation table above.

In determining executive compensation, the Board considers the Company's financial circumstances at the time decisions are made regarding executive compensation, the mid and long-term forecasted financial position of the Company and the performance goals set for the segments of the Company's activities. Since only a portion of the Company's operations currently earn revenue, equity incentives such as stock options and share units are considered by the Company and its Board as an important component of executive compensation, insofar as these forms of compensation do not necessarily require cash disbursements by the Company.

The Company has entered into employment agreements with each of its NEOs. For a description of the employment agreements entered into between the Company and certain of its NEOs, see "*Executive Compensation – Employment Agreements and Termination and Change of Control Benefits*" below.

Additional information about the Company and its operations is available in the Company's audited consolidated financial statements, which are available under the Company's profile on SEDAR at: www.sedar.com.

Principles, Components and Policies

The Compensation Committee is responsible for recommending the compensation of the Company's executive officers to the Board. The compensation levels established for executive officers are developed with a view to satisfying the following goals:

- to recruit and subsequently retain highly qualified executive officers by offering overall compensation which is competitive with that offered for comparable positions in other mineral exploration companies of a similar size and overall stage of business development;
- to motivate executives to achieve important corporate and individual performance objectives and reward them when such objectives are met; and
- to align the interests of executive officers with the long-term interests of shareholders through participation in the Company's equity incentive plan.

Currently, the Company's executive compensation package consists of a base salary, discretionary annual cash bonus and long-term incentives that can take the form of share options, performance share units (where the units vest based on the achievement of identified performance objectives) and restricted share units (where units will vest after the unit-holder has worked a specified period of time for the Company). In this manner, different types of compensation are available to reward executives for near-term performance and thereby motivate executives in the near terms, as well as to motivate and reward executives for their loyalty and commitment to the Company and to motivate executives

to help achieve the principal objectives identified by the Company's Board of Directors. In the future, the compensation offered to directors, officers and senior management, as well as other employees, could include other forms of equity-based compensation as a component of long term incentive compensation.

The components of long term incentive compensation offered by the Company have been established for the Company's executive compensation package on the basis that a competitive base salary and opportunity for annual cash bonuses are required in order both to retain key executives and acknowledge their performance in the near-term, and that participation in the Company's equity-based incentive compensation awards should align the interests of management with those of the Company's shareholders, as well as contribute to the ongoing success of the Company.

When determining the type and extent of compensation to be offered and paid to executives, the Compensation Committee considers the Company's financial situation, particularly the availability of cash and anticipated needs for cash, as well as the performance of the Company's share price. In the case of share units granted to executives, the Compensation Committee has sought to preserve the ability to determine to make payments due when share units are vested either in cash or in shares of the Company at the time those payments are due. In that regard, the decision to make compensation payments in cash or equity can be reached at a time when it will be possible for the Compensation Committee and the Board of Directors to assess financial conditions, cash constraints, cash requirements, stock market conditions and general market conditions.

In considering compensation offered to management, the Compensation Committee considered the risks associated with the Company's compensation policies and practices and concluded that, given the nature of the Company's business and the role of the Compensation Committee in overseeing the Company's executive compensation practices, the compensation policies and practices do not serve to encourage any NEO or individual at a principal business unit or division to take inappropriate or excessive risks, and no risks were identified as arising from the Company's compensation policies and practices that are reasonably likely to have a material adverse effect on the Company.

Although the Company has not adopted a policy disallowing insiders from purchasing financial instruments designed to hedge or offset any decrease in market value of shares or any other securities of the Company, the Company is not aware of any insiders having purchases such instruments.

Base Salary

The NEOs are paid a salary that is designed to ensure that the compensation package offered by the Company is competitive with that offered by others in the mineral exploration and development industry, and that fairly compensates the NEOs for efforts on behalf of the Company. Base salaries for executive officers are evaluated against the responsibilities inherent in their positions with the Company, as well as each individual's experience and past performance. Compensation levels are also compared to the competitive marketplace for management talent at other mineral exploration and development companies that are at similar stages of development, market capitalization and size.

Since fiscal year 2017, in acknowledgement of the impact of macro-economic and sectoral challenges faced by the Company's core iron ore business and in recognition of the desire to preserve the Company's cash while the Company redirects its activities into other areas, the Company's President and CEO offered to reduce his base salary by 20%, and this offer was accepted by the Board. In addition to the reduced base salary, he also volunteered a deferral of another \$30,000 a year for years 2019 and 2020 to be repaid when business recovers. In fiscal year 2021, in view of Mr. Chim's efforts in successfully creating a number of accretive transactions over the last few years to increase the value of the Company, the Board has approved a back payment of half of the voluntarily reduced salary to Mr. Chim as a one-time recognition of Mr. Chim's contributions, with no other salary adjustment to his currently reduced salary.

Annual Incentive Cash Bonuses

The NEOs are entitled to be considered for a discretionary annual incentive cash bonus at the end of each year.

For the financial year ended March 31, 2021, the Company's President and CEO is eligible to receive a cash bonus of between \$0 and \$750,000, based on his performance. That performance was available based on an evaluation of the President and CEO's performance (and/or the Company's performance) in pre-determined areas such as share price, balance sheet, budget management, the achievement of Century Food and the Joyce Lake project development.

During fiscal years 2017 to 2020, the Company's President and CEO offered to forego any cash incentive bonus payment for the same reasons as his voluntary salary reduction.

The Compensation Committee expects to periodically re-adjust the performance criteria applied so as to promote an alignment between the goals for the Company as identified by the Board of Directors and the corresponding cash compensation available to the President and CEO if those goals are achieved.

For other NEOs, the Company has not established defined performance measures to be applied when determining how much incentive cash bonus to award. However, when determining those cash bonuses, an executive's performance during the year is evaluated, as are the Company's achievements during the year.

For the financial years ended March 31, 2021, March 31, 2020 and March 31, 2019, the Company awarded discretionary bonuses to the NEOs as reflected in the *Summary Compensation Table* provided above under the heading "Annual Incentive Plans". The Company's objectives in granting annual incentive cash bonuses generally include:

- attracting and retaining talented, qualified and effective executives;
- motivating the short and long-term performance of these executives; and
- better aligning their interests with those of the Company's shareholders.

Long-Term Incentives—Equity-based incentive compensation

The Equity Incentive Plan of the Company ("**Equity Incentive Plan**") allows for the grant of stock options and other types of equity incentive awards to NEOs, directors, employees and others providing services to the Company. The plan was most recently re-approved by shareholders at their meeting on September 21, 2020, and by the TSX. Under TSX policies, the Company will not be required to seek re-approval of the plan until September 21, 2023, unless significant amendments to the Equity Incentive Plan are proposed in the interim. The objective of the Equity Incentive Plan is to provide the Company with the ability to compensate its directors, management and employees with forms of equity-based compensation including stock options and share units, while nonetheless linking the compensation of the recipients of those awards to directors, executives, key employees and others providing services to the Company to the Company's long term success, as well as to promote retention and motivation among these individuals.

Share options have been granted to reward individuals for current performance and to align the long-term interests of the NEOs (as well as other optionees) with shareholders. Share options are granted in accordance with the Company's Equity Incentive Plan. The exercise price for options granted under the plan cannot be less than the market price of the securities at the time the option is granted, and must otherwise comply with the policies of the TSX. See "*Securities Authorized for Issuance under Equity Compensation Plans*" below.

On November 13, 2013, the Board approved the award of share units tied both to continued service and to established performance objectives granted under the Equity Incentive Plan. Share units are an additional component of compensation to officers (including the NEOs), directors, key employees and others providing services to the Company. A portion of the share units granted vest over time provided the unit holders continue to be employed by or provide services to the Company for the required vesting period, and the balance would vest if identified performance criteria are met and achieved. For vested share units, the holders are entitled to payment in cash or in shares of the Company, at the election of the Company. Each share unit is equivalent to one ordinary share of the Company. If a unit holder is to receive payment of his or her share units in cash, the amount of the payment would be the fair market value of ordinary shares of the Company. Generally, the Board will have discretion to determine the date as of which the fair market value of ordinary shares is determined for these purposes, provided that the date cannot be earlier than the date when all pre-conditions to payment under a share unit have been satisfied. However, when a share unit is granted, the Board may specify in the applicable agreement another date or principle for determining the fair market value of ordinary shares for purposes of share unit payments.

Compensation-Related Report

In March of 2012, the Company received a report from a compensation consultant, Roger Gurr & Associates, regarding the appropriateness of the Company's executive (and director) compensation structure. In preparing the report, the Company's compensation structure was compared to the compensation offered by a group of 14 comparable companies. The report concluded that the Company's executive compensation structure is reasonable with respect to salary, annual bonus opportunities and annual stock option issuances. The report also noted that in order to provide more attractive compensation packages, if capacity was available, larger annual issuances of stock options could be

provided.

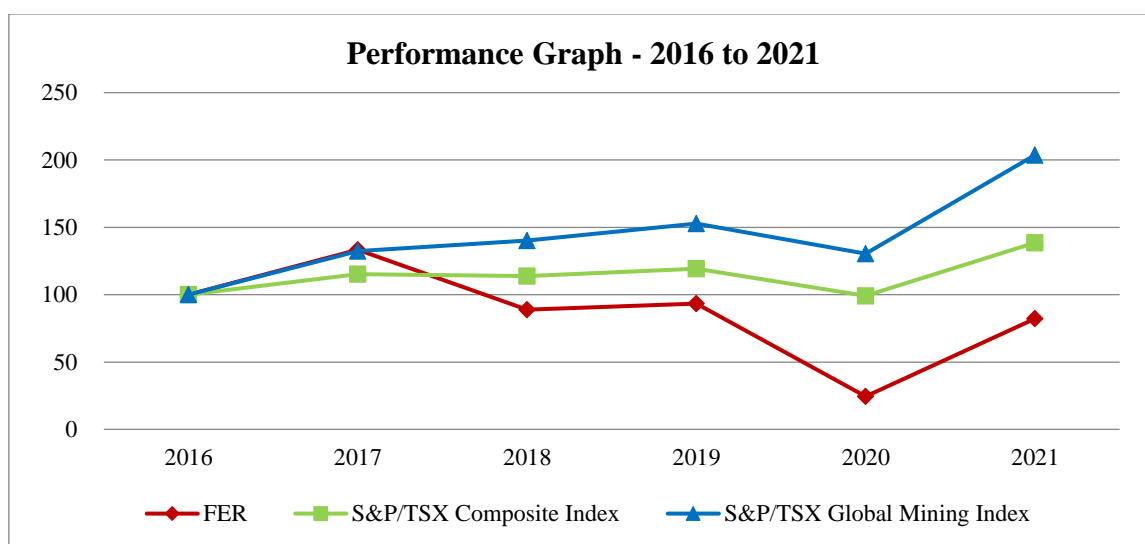

On July 2, 2013, the Company retained Towers Watson to provide assistance in designing and implementing a long-term incentive plan for the Company's executives, key employees, directors and others. This report resulted in amendments to the Company's stock option plan that were approved at the meeting of shareholders held on September 26, 2013.

Executive Compensation-Related Fees and All Other Fees

For the financial years ended March 31, 2021 and March 31, 2020, and during the period since March 31, 2021, the aggregate fees billed to the Company by each compensation consultant or advisor for services related to determining compensation for any of the Company's directors and executive officers were Nil, Nil and Nil respectively. These fees do not include fees of legal counsel incurred with respect to advice generally provided to the Board of Directors and its Compensation Committee.

Performance Graph

The following graph depicts the Company's cumulative total shareholders' return on March 31 of the five most recently completed financial years from 2017 to 2021, assuming a \$100 investment in the Company's ordinary shares since April 1, 2016, compared to an equal investment in the S&P/TSX Composite Index and the S&P/TSX Global Mining Index.

Over the past five years, there has been no major change in the Company's overall compensation to its executive officers except for the fiscal year 2021, in which year the Company's Board has approved certain share options, a back payment of half of the previously voluntarily reduced salary of the CEO, and bonuses to its other executive officers in recognition of their efforts in creating and completing a number of accretive transactions over the last few years to increase the value of the Company, as further discussed below.

The Company has successfully spun out a gold focused company Century Metals Inc. ("**Century Metals**") which shares became listed and traded on the Toronto Stock Exchange ("**TSX**") on June 17, 2019. As part of the Century Metals spin-out plan, in June 2019 the Company distributed a dividend in kind of 10 million Century Metals shares to the Company's shareholders. The Century Metals spin-out created an independent public company focused initially on gold exploration on its 100%-owned Fabie, Trudeau and Eastchester claim groups in Quebec, Canada, with the ability to acquire additional precious metals properties and projects going forward. Century Metal identified a promising Mexican silver opportunity and entered into a letter of intent with Reyna Silver Corp. ("**Reyna Silver**") effective September 23, 2019 to acquire all the issued and outstanding share capital of Reyna Silver, which together with other properties, owns the Guigui and Batopilas silver exploration properties in Mexico. Century Metals and

Reyna Silver raised about \$6.6 million by way of private placements to support the acquisition. On June 3, 2020, Century Metals completed the acquisition of Reyna Silver and changed its name to “Reyna Silver Corp.” upon TSX Venture Exchange’s approval. Immediately after the acquisition transaction, the Company retained an interest of 3.67% of the merged company. The 10 million Century Metals shares that were distributed to the Company’s shareholders in 2019 were consolidated on a 6.4 to 1 basis to approximately 1.6 million shares of Reyna Silver, and represented approximately \$0.9 million in value in total based on the closing price of \$0.57 on the first day of trading resumption on June 8, 2020 after the completion of the acquisition, reflecting an almost 50% increase in value from the price of those shares at the time of distribution of 6 cents before consolidation. The closing share price of Reyna Silver was \$0.91 on March 31, 2021.

Prior to the spectacular price performance of the iron ore market since late 2020, in November 2020 the Company consolidated ownership of its iron ore projects by the acquisition of our joint venture partner’s interests in the Joyce Lake project and other Labrador iron ore projects, through an open market process to attain 100% ownership. In December 2020, the Company also completed an internal reorganization in particular placing the Joyce Lake project in a corporate structure suitable for spinning out on the Australian Securities Exchange (“**ASX**”) which is trading with favourable valuations and liquidity compared to other markets, with a view to future project development financing. The Joyce Lake project spin-out is structured in a similar way to the accretive and successful way Century Metals was previously spun-out. On May 14, 2021, Joyce Direct Iron Inc. (“**JDI**”), the special purpose vehicle holding 100% interest in the Joyce Lake project, raised A\$2.0 million through completion of a private placement, reflecting a pre-money valuation of A\$20 million. On May 27, 2021, the Company announced submission of the Environmental Impact Statement for Joyce Lake to the Impact Assessment Agency of the Government of Canada and additionally as part of the registration process to the Environmental Assessment Division of the Department of Environment and Climate Change of the Government of Newfoundland and Labrador. As of the date of this document, the Company retains a 92.0% controlling ownership in JDI.

These successful accretive transactions delivered by management over the last two years has rebuilt the Company’s cash and working capital and allows it to advance its iron ore assets during the new iron ore price up-cycle. As of March 31, 2021, the Company’s liquidity improved significantly with cash and marketable securities increased to over \$13 million and working capital to over \$14 million from \$4 million and \$7 million respectively at the beginning of the fiscal year. The Joyce Lake project ASX planned spinout listing together with the completed A\$2 million pre-IPO financing further adds valuable financial resources, it also reflects on the substantial long-term investment by the Company’s supporting shareholders.

In spite of these favourable transactions, the Company’s stock performance has lagged that of both the S&P/TSX Composite Index and S&P/TSX Global Mining Index over the period. The Board believes that the under-performance in the Company’s share price largely reflects the negativity in the market sentiment towards the more pronounced decline in the iron ore sector over the past few years relative to other commodities including gold, copper and other base metals, and in particular towards junior mining companies such as the Company whose projects are not yet in the production stage. The Board considers that the fluctuation in share price was unrelated to the performance of the management of the Company but was instead driven by the overall macroeconomic conditions specific to the iron ore sector.

When compared to its peers, other iron ore exploration and development companies operating in the Labrador Trough region, the Company’s stock has performed very well and ranks near the top of this group. Management is of the opinion that this was a direct result of management’s ongoing performance and efforts over the last few years to create a substantial portfolio of iron ore resources totaling 19.4Bt, to have advanced the Company’s flagship Joyce Lake project when the iron ore market is recovering, to have successfully executed the Century Metals spin-out and acquisition transactions, to have developed a counter-cyclical food operation complement to the Company’s iron ore business, and to have positioned the Company to perform well to maximize shareholder returns when the iron market recovers. Management is optimistic that the Company’s holdings of approximately \$13 million of cash, bank deposits and investment portfolio, along with its unique competitive advantage of establishing strong partnerships with two Chinese state-owned enterprises, and the Company’s successful experience of the Century Metals spin-out, will allow the Company to create more value for its shareholders when the iron ore market is in its recovery.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

Equity Incentive Plan

The Equity Incentive Plan was most recently re-approved by shareholders at the annual general meeting of shareholders held on September 21, 2020. The purpose of the Equity Incentive Plan is:

- (a) to provide directors, officers and consultants of the Company with an opportunity to purchase or own ordinary shares of the Company; and
- (b) to permit the Company to grant other types of equity-based compensation to directors, officers and consultants of the Company, such as performance share units and restricted share units (where compensation is awarded based on the achievement of performance milestones or duration of service and, when earned, could be paid in shares or cash), restricted or performance shares (*i.e.* shares that are subject to vesting conditions) and share appreciation rights (where compensation could be payable in cash or shares based on the appreciation in the value of the Company’s ordinary shares).

These grants or awards of equity-based compensation are intended to provide an increased incentive for the recipients to contribute to the future success of the Company in a manner that enhances the value of the ordinary shares. They are also meant to increase the ability of the Company to attract, motivate and retain qualified individuals.

The Equity Incentive Plan is administered by the Compensation Committee in conjunction with management. The Compensation Committee is responsible for recommending for approval to the Board the terms and conditions applicable to grants of stock options and other equity-based compensation under the Equity Incentive Plan, including the number of ordinary common shares issuable.

Under TSX rules, the approval of the Equity Incentive Plan by the Company’s shareholders is valid for three years and the Company would have to seek shareholder approval of the plan again on or before September 21, 2023.

The following is a summary of the material terms of the Equity Incentive Plan:

Number of Securities Issuable. The maximum number of shares that may be issued under the plan is the number that is equal to 15% of the total number of ordinary shares of the Company issued and outstanding at any time, less any ordinary shares reserved for issuance under other share compensation arrangements. As of the date of this Information

Circular, there are 11,712,500 share options outstanding (11,592,500 as of March 31, 2021) under the plan, such options being exercisable for the same number of ordinary shares, corresponding to 11.9% of the Company's issued and outstanding ordinary shares (11.8% at March 31, 2021). In addition, as of the date of this Information Circular, no performance share units and restricted share units (Nil as of March 31, 2021) under the Equity Incentive Plan were outstanding, corresponding to 0% of the Company's issued and outstanding ordinary shares (0% at March 31, 2021). In total, as of the date of this Information Circular, a total of 11,712,500 ordinary shares (11,592,500 as of March 31, 2021) could be issued in respect of share options and share units that are outstanding under the Equity Incentive Plan, corresponding to 11.9% of the Company's issued and outstanding ordinary shares (11.8% at March 31, 2021).

Insider Participation Limit. Notwithstanding anything else provided under the Equity Incentive Plan:

- the number of ordinary shares that may be issuable at any time to insiders under the Equity Incentive Plan and under any other equity-based arrangements of the Company; and
- the number of ordinary shares issued to insiders of the Company under the Equity Incentive Plan and under any other equity-based compensation arrangements of the Company during any one year period;

may not exceed 10% of the Company's issued and outstanding shares.

Eligible Persons. "Service Providers" are eligible to receive grants of share-based awards and share options under the Equity Incentive Plan. "Service Providers" are bona fide directors, officers, employees, management company employees and consultants and also include a company of which 100% of the share capital is beneficially owned by one or more individual Service Providers.

Exercise Price. During such time as the ordinary shares of the Company are listed on the TSX, the exercise price of options granted under the plan will be the greater of the closing price for the Company's ordinary shares on the TSX on the last trading day before the date of grant of the option and the weighted average of the trading prices for the ordinary shares on the five trading days before the date of grant of the option. For the share awards, upon vesting, the party to whom a share unit was granted is entitled to receive either the corresponding ordinary share, or a cash payment corresponding to the fair market value of the ordinary share calculated on a date determined in good faith by the Board. Under the Equity Incentive Plan, the fair market value as of a specified date is the last closing price of the ordinary shares of the Company on the TSX on the trading day immediately preceding that date.

Vesting. Vesting of stock options and shares awards granted under the plan will be based on duration of services and/or satisfaction of performance conditions and subject to the discretion of the Board. On a change of control or takeover bid, if provided for in the optionee's or grantee's employment agreement, the options or share awards will fully vest and in all other cases may fully vest at the discretion of the Board. For the purposes of the Equity Incentive Plan, a change of control occurs in the circumstances set out in the optionee's or grantee's employment agreement or, if not defined in the applicable employment agreement, on the acquisition of a number of the voting securities of the Company, which, including all the other voting securities of the Company held by the acquirer, results in such entity holding for the first time at least 30% of the outstanding voting securities of the Company.

Termination of Exercise Right for Share Options. No option may be exercised after an optionee has left the employment or service of the Company except as follows:

- in the event of an optionee's death, any vested option held by the optionee at the date of death will be exercisable by the optionee's lawful personal representatives, heirs or executors until the earlier of 12 months after the date of death and the date of expiration of the term otherwise applicable to such option; and
- if and to the extent provided in the optionee's employment agreement.

Generally speaking, vested options will expire 90 days after the date the optionee ceases to be employed by, provide services to, or be a director or officer of, the Company, and any unvested options shall immediately terminate. In addition, if an optionee is dismissed for cause, such optionee's options, whether or not they are vested at the date of dismissal, will immediately be terminated.

Termination of Exercise Right for Share Awards. No award may be exercised after a grantee has left the employment or service of the Company except as follows:

- in the event of an grantee's death, any vested awards held by the grantee at the date of death will be exercisable by the grantee's lawful personal representatives, heirs or executors until the earlier of 6 months after the date of death and the date of expiration of the term otherwise applicable to such award;
- in the event of retirement from employment with or service to the Company or in the case of the Company terminating the grantee's employment or other service to the Company without cause, the Company will require to make payment in cash or the ordinary shares in respect to any vested awards held by the grantee at the date of retirement or termination;
- With respect to any share awards for which vesting depends on the grantee providing services to the Company for a specified period ("**Vesting Period**"), and in the event of grantee's death, retirement from service or termination by the Company of the service, a *pro rata* portion of the share awards shall vest immediately prior to such termination of grantee's service and the Company will be required to make payment to the grantee or his representatives, heirs or executors based on the percentage of share awards earned by the grantee during the Vesting Period; and
- if and to the extent provided in the grantee's and employment agreement.

If a grantee is dismissed for cause, such grantee's options, whether or not they are vested at the date of dismissal, will immediately be terminated.

Terms. Share-based awards and share option awards granted under the Equity Incentive Plan will have a maximum term of 10 years from their date of grant.

Extension of Expiry Period. If a share option or share award which has been previously granted is set to expire during a period in which trading in securities of the Company by the option holder is restricted by a black-out, or within 9 business days of the expiry of a black-out, the expiry date of the option will be extended to 10 business days after the trading restrictions are lifted.

No Assignment. Subject to the provisions of the Equity Incentive Plan, all Share-based awards and share option awards will be exercisable only by the optionee or grantee to whom they are granted and will not be assignable or transferable, except in the event of the death of the optionee or grantee when his representatives, heirs or successors may exercise any vested options and share awards. In addition, the board of the Company may permit a grantee to transfer share awards to a Service Provider (as defined in the Equity Incentive Plan).

Administration. Subject to the requirements of applicable law and TSX policies requiring shareholder or other approval, the Equity Incentive Plan provides that the Board may amend, suspend, terminate, or discontinue the plan or any option and awards, or revoke or alter any action taken under the plan or option and awards, except that the Board may not undertake any such action if it were to adversely alter or impair an option or award unless it first obtains the written consent of the affected optionee or grantee.

Amendments Requiring Shareholder Approval. Shareholder approval is required for the following amendments to the Equity Incentive Plan:

- an increase of the aggregate percentage of securities issuable under the plan; and a reduction in the exercise price of an outstanding option;
- an extension of the term of any option beyond the expiry date;
- any amendment to permit assignments or exercises other than by the optionee or grantee other than as set out in the plan;
- amendment to the individuals eligible to receive options or awards under the plan;
- an amendment to the plan to provide for other types of compensation through equity issuance, other than an amendment in the nature of a substitution and/or adjustment made by the Board in response to a change to, event affecting, exchange of, or corporate change or transaction affecting the Ordinary shares of the Company; and
- an amendment which is required to be approved by shareholders under applicable law (including, without limitation, the policies of the TSX).

Amendments without Shareholder Approval. Subject to the policies of the TSX, the Equity Incentive Plan may be

amended without shareholder approval for the following:

- amendments of a “housekeeping” nature;
- amendments necessary to comply with the provisions of applicable law;
- amendments respecting the administration of the Equity Incentive Plan;
- any amendment to the vesting provisions of the plan or any option and awards;
- any amendment to the early termination provisions of the plan or any option and awards, whether or not such option or award is held by an insider, provided such amendment does not entail an extension beyond the original expiry date;
- the addition of any form of financial assistance by the Company for the acquisition by all or certain categories of participants of ordinary shares under the plan, and the subsequent amendment of any such provision which is more favourable to participants;
- the addition or modification of a cashless exercise feature, payable in cash or ordinary shares, which provides for a full deduction of the number of underlying ordinary shares from the plan reserve;
- amendments necessary to suspend or terminate the plan; and
- any other amendment not requiring shareholder approval under applicable law (including the policies of the TSX).
